

dataPRIME and dataPRIME with NCOA^{LINK}

dataPRIME is a full suite of data hygiene and identification processes available to help you maintain the quality and freshness of your consumer data. By providing you with up-to-date and complete Address, Date of Birth, Deceased and Telephone information, dataPRIME can help your business:

- Reduce Mailing Costs
- Validate and Standardize Consumer Data
- Improve Productivity and Sales Conversion Rates
- Correct Incomplete or Misspelled Address Elements

dataPRIME PRODUCT COMPONENTS INCLUDE:

Coding Accuracy Support System(CASS)-Certified Address Standardization and Updating

Occupancy-Level Address Correction: This service identifies and corrects missing or inaccurate address elements at the consumer level, including:

- Updating incomplete street numbers, partial street names or missing directional abbreviations
- Adding missing or inaccurate apartment and unit numbers
- Correcting misspelled address elements

SAMPLE:

Category	Source Record	Corrected Record
Typographical Mistakes	John Smith 12303 NW 8 ST Anytown, CA 99999	John Smith 12306 NW 8TH ST Anytown, CA 99999
Misinterpreted Mistakes	Joe Williams 111 E 22 nd ST Anytown, OK 77777	Joe Williams 113 SE 22 nd ST Anytown, OK 77777
Apartment and Zip Info Errors	Jane Smith 123 Main Street Apt A104 Anytown, OR 99999	Jane Smith 123 Main Street Apt A101 Anytown, OR 99999
Street Name Issues	Bob Miller 456 River Road Anytown, CA 99999	Bob Miller 456 Lake Road Anytown, CA 99999

NCOA^{Link}: Identifies consumers who have moved and updates their record with current address information.

Proprietary Change of Address (PCOA): Not all individuals submit a NCOA form via the USPS and that number is continues to decline. Our PCOA service matches consumer data to identify moves not provided by NCOA^{Link}.

Date of Birth and Date of Death (DOB and DOD): dataPRIME identifies and appends both Date of Birth and Date of Death to input records.

Persistent Identification (PID): dataPRIME appends a unique PID to each processed input record. All known name and address variation attributed to a single consumer and every record identified as a single consumer is assigned to the same PID. Each record also has address identifiers assigned.
